Danglers

All our cathode danglers are manufactured from top quality fully insulated cables, with steel bombs. Outer cables are protected by reinforced PVC tubing, with heat shrink protective sleeving; making them watertight. Connection lugs are available from 12 to 17mm.

Danglers to suit Mini Barrel

Mini Danglers - 22"long x 16mm ² end section	MM0042
Mini Danglers - 18"long x 16mm ² end section	MM0043

Danglers to Suit 30" Cylindrical Barrel

Danglers - pack of 1 pair - 36" long x 50mm ² end section	MM0044
Danglers - pack of 10 pairs - 36" long x 50mm ² end section	MM0045
Danglers - pack of 1 pair - 33/36" long x 70mm ² end section - heavy duty	MM0046
Danglers - pack of 10 pairs - 33/36" long x 70mm ² end section - heavy duty	MM0047
Danglers - pack of 1 pair - 36"long x 70mm ² end section	MM0052
Danglers - pack of 10 pairs- 36"long x 70mm ² end section	MM0053

Danglers to Suit 42" Cylindrical Barrel

Danglers - pack of 1 pair - 42" long x 50mm ² end section	MM0048
Danglers - pack of 10 pairs - 42" long x 50mm ² end section	MM0049
Danglers - pack of 1 pair - 42" long x 70mm ² end section	MM0054
Danglers - pack of 10 pairs - 42" long x 70mm ² end section	MM0055

Special Order Danglers (supplied in Pairs)

32" long x 50mm ² end section	MM0056
36" long x 50mm ² end section with Welded Washer	MM0194
36" long x 95mm ² end section	MM0195
1100mm long x 150mm ² end section	MM0196
150mm long x 40mm ² end section	MM0197
29" long x 30mm ² end section	MM0311
50" long x 30mm ² end section	MM0312
32" long x 50mm ² end section Stainless Steel Bomb	MM0313
Push in Danglers to your requirements	MM0322

Barrels and Spares

Standard Barrels

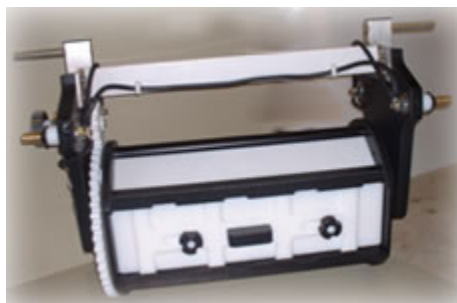

A comprehensive range of barrels for electroplating and phosphating including 18" x 10" and portable barrels. Made in the UK our European standard models can be manufactured with perforations to suit your production needs. We can manufacture any special barrel to customer requirements, with or without hanger assemblies to suit your plant.

18"long x 10"diameter	MM0183
18"long x 10"diameter twin compartment	MM0184
30"long x 16"diameter	MM0185
10"long x 16"diameter flat top	MM0186
30"long x 16"diameter twin compartment	MM0187
30"long x 16"diameter fitted with sieves	MM0188
42"long x 16"diameter	MM0189

Invincible Barrels

As the name suggests the "invincible" family of barrels and cylinders are well known for their heavy duty application, manufactured from high density polythene for durability. For extra high loadings the barrel panels have increased thickness and steel reinforcing bars are fitted in the centre of the supporting struts.

18"long x 10"diameter	MM0323
18"long x 10"diameter twin compartment	MM0324
30"long x 16"diameter	MM0325
10"long x 16"diameter flat top	MM0326
30"long x 16"diameter twin compartment	MM0327
30"long x 16"diameter fitted with sieves	MM0328
42"long x 16"diameter heavy duty	MM0329

Portable Barrels with Drive Motors

(drive motors to your specification)

A full range of portable barrels are available for most plating and phosphating applications. They can be fitted with 12 volt motors, 240 volt single phase motors or 440 volt 3 phase motors.

200mm long x 150mm diameter	MM0314
300mm long x 200mm diameter	MM0315
350mm long x 200mm diameter	MM0316
400mm long x 200mm diameter	MM0317
450mm long x 200mm diameter	MM0318

6"long - Mini Portable	MM0164
8"long - Mini Portable	MM0165
10" long - Mini Portable	MM0166
12" long - Mini Portable	MM0167

Barrel Spares

18" Barrel - inner bearing	MM0001
30" Barrel - inner bearing	MM0002
42" Barrel - inner bearing	MM0003
18" Barrel - outer bearing	MM0004
30" Barrel - outer bearing	MM0005
42" Barrel - outer bearing	MM0006
18" Barrel - wearing sleeve (slave ring)	MM0007
30" Barrel - wearing sleeve (slave ring)	MM0008
42" Barrel - wearing sleeve (slave ring)	MM0009

Mild Steel Cylindrical 48" Long 5" Hook	MM0176
Titanium Rectangular 12" x 6" x 2"	MM0177
Titanium Rectangular 18" x 8" x 2"	MM0178

Anode Bags / Filter Bags

Our extensive range of anode and filter bags are manufactured from polypropylene, terylene, nylon or cotton. They can be manufactured to a box style shape, i.e. with four sides and a bottom, or pillow case style, with laced up sides and top to suit.

Our filter bags are usually polypropylene and have pore sizes of 1.5 and 25microns. A cost effective and re-usable solution for your filtration needs. The filter bags are made to order so please contact us with your size requirements.

Gear Shafts

Gear Shaft complete with Gear Fixing Plate to suit 18" Barrel	MM0021
Cannings Idler shaft to suit 30" Barrel	MM0022
Standard Gear Shaft (200mm long) to suit 30" Barrel	MM0023

Oilite Bearings

Gear Shaft Oilite Bearing 1" Dia.	MM0024
Gear Shaft Oilite Bearing 1.1/4" Dia.	MM0025

Gear Shaft Spacers

10mm Poly gear shaft spacer to suit 1.1.4" shaft	MM0026
5mm Poly gear shaft spacer to suit 1.1.4" shaft	MM0027

Bearing Shaft Housing

Intermediate bearing shaft housing (F.R.Thomas.)	MM0028

Tank Fittings

We are able to supply electroplating tanks to the size and specifications; these include polypropylene tanks, lined mild steel tanks, stainless steel 30 and 316 tanks, all with body bands or frames for extra strength.

We stock most types of brass and polypropylene tank fittings.

Mink Plating System

The Minik unit is a simple barrel plating system which can be used with a manual pre treatment line to provide an economic high capacity barrel plating facility.

The swing over barrel support arrangement avoids the necessity of additional hoist facilities.

The barrel cylinder, hangers, gears, guard and hopper are all constructed in polypropylene.

Plating Unit Complete	MM0129
Minik Shock Absorber	MM0130
